

(SMAW) (Shielded Metal Arc Welding) WELDING RECTIFIER SETS

CHAMP 150

INVERTER BASED

SCOPE AND APPLICATIONS:

- Single Phase inverter based, high efficiency and high power factor welder.
- Enhanced reliability due to SMD technology.
- Class 'H' insulation.
- Ideal for maintenance and light duty production jobs.

SALIENT FEATURES:

- High frequency IGBT based Rectifier.
- TIG welding possible with lift Arc Technique.
- Light weight, compact and easy to carry any where.
- Operates on 230V, 50Hz, single phase supply.
- Higher Efficiency (>80%).
- Hot start arc force control available.

ADOR WELD
