

# (SAW) Submerged Arc Welding SUBMERGED ARC WELDING OUTFITS

## MAESTRO 600(F)/800(F)/1000(F)/1200(F)

### DIODE BASED

#### SALIENT FEATURES:

- Perfectly matched power sources and welding heads.
- Choice of Boom mounted or Tractor mounted models with Diode Power Source.
- Boom mounted head comes with a choice of manual, semi- motorised and fully motorised cross slides.
- Programmed sequential operations of Power source, Wire Feed and Carriage through built-in solid state circuitry.
- Twin Wire attachment is optionally available - helps to achieve 20-30% higher weld deposition rates.
- Fillet welding attachment (optional) - enhances usability and shopfloor productivity.
- Newly improved feature torch control panel.
- Improved wire feed drive and carriage drive assemblies for longer life.
