

# Welding for Bharat Nirman

Bharat Nirman is a far-reaching Nation building plan launched by the Central Government with the aim of developing critical infrastructure, including transportation, energy, ports, telecommunication, urban infrastructure etc.

For every infrastructure project, welding is a vital component. As India's pioneers in welding for over a century, Ador, through its educational thrust Ador Institute of Welding Technology (AIWT) will play a crucial role in empowering India.

## AIWT is contributing to the Bharat Nirman Mission through:

- **Better quality welders** – Fine-tuning welder skills through training; thus also improving welder employability.
- **Better quality welding** – Upgrading local skills on latest technology applications and training in superior welding practices.
- **Infrastructure support for training** – Providing support to technical institutes, ITIs and vocational centres.
- **Training facilities on site** – Providing infrastructure, faculty and curriculum support at even remote project sites.

**Empowering Welding. Empowering Bharat.**

FIVE DECADES OF  
KNOWLEDGE, TECHNOLOGY & EDUCATION  
*all blended into*

**Ador Institute of Welding Technology**
