

PROJECT COMPLETION CERTIFICATE

We, UNITED FUEL SUPPLY (India) Pvt. Ltd, Mumbai, India certify that Ador Welding Limited, Pune, India has successfully executed the order for Methanol Distillation System – 20 GPM Capacity (MOC-316L).

The supply package includes Process Column with Internals, Reboiler, Primary and Secondary Heat Exchangers, Reflux Drum confirming to ASME U Stamp and NB registered and required automation.

AWL scope for the above package is with complete design and detailed engineering, manufacturing, testing, supply and commissioning along with product warranty and process guarantee.

The above plant is in continuous operation at the optimum designed capacity to deliver 99.9% purity meeting all the specified requirements since July'2014 at our biodiesel manufacturing plant at Salt Lake City, USA.

We are delighted with the professional approach of Ador's team and high quality execution during the entire project.

We have no hesitation in recommending Ador Welding Limited, Pune, India for similar and even bigger projects.

We wish Ador and their team a great success in their future endeavours.
